

mLISD 24/7/365:

New initiative allows students to keep devices all year

Through the new mLISD 24/7/365 program, current sixth- through 11th-grade students can pay their dues now and keep their same laptops year-round, even over the summer, to avoid the hassle of checking out a new device next year.

Families of current fifth-grade students may also pay their child's mLISD dues now to save an extra step next school year when those students are issued their devices.

mLISD PAYMENT OPTIONS

Dues for mLISD are \$70 for an entire year (\$35 for students receiving free or reduced lunch). Families can pay with debit or credit cards through the [mLISD website](#); a cash payment and parent agreement form through the campus office; or by submitting scholarship and parent agreement forms through the campus office. Contact the front office at your child's school for information regarding scholarship availability.
